Superior Court of California
County of Amador

Andrea C. Sexton
Court Executive Officer

For many case types, an electronic recording is maintained as the official record of the proceeding and a copy of the recording may be prepared. The Court will place the recording on a USB Drive in a format that is compatible with most media players found on personal computer systems.

A fee of $25.00 is charged for the USB Drive. Payment is required upon submission of request. Unless other arrangements are made, you can expect the recording to be ready for pick up within a reasonable time following the submission of the Request for Electronic Recording.
